MOLD and LEGIONELLA REOPENING GUIDANCE

MAY 21, 2020

---

The temporary shutdown or reduced operation of a building and reductions in normal water use can create hazards for returning occupants; these hazards can include mold and *Legionella*. After a prolonged shutdown, building owners and employers should ensure that their building does not have mold and that the water system is safe to use to minimize the risk of Legionnaires' disease. Guidance on how to do this is available from the CDC <https://www.cdc.gov/coronavirus/2019-ncov/php/building-water-system.html>.
